Comparative Statistics on Economics, Development, Demographics and Conflict for Colombia, Sri Lanka, Syria and Uganda

Compiled for the ESRC Strategic Network on Justice, Conflict and Development, June 2018.
This report contains comparative statistics on the four case study states (Colombia, Sri Lanka, Syria and Uganda) in the Justice, Conflict and Development network. It was compiled using World Bank data to provide topline indicators for the four countries. Thanks are due to Matheus Gagliardi-Greco-Fraga-Santos at the London School of Economics and Political Science for compiling the data and creating the graphs.
A) ECONOMIC INDICATORS

Source for all data: World Bank
B) DEVELOPMENT INDICATORS

Source for all data: World Bank
